

## **Press Release**

### **As part of Indosat Corporate Solution service Indosat present Corporate VPN and Mobile Extension for Corporate Customers**

**Jakarta, April 30, 2008** – Indosat present Corporate VPN (Virtual Private Network) service and Mobile Extension as part of Indosat Corporate Solution (ICS), namely integrated solution for communication service of Indosat for corporate customers segment. Both services which are categorized as convergence solution, was presented in seminar on “How to Utilize Technology in Marketing 2008” by Hermawan Kertajaya, Dimitri Mahayana and Guntur S. Siboro, Marketing Director of Indosat as the speakers, in Jakarta today.

“It is our commitment to deliver various integrated communication services for corporate customers with easier solution and competitive tariff,” said Guntur Siboro.

Corporate VPN is a solution service by offering high speed access with 3.5G broadband HSDPA technology in which customers can access their internal network by only using laptop and 3G data card or cellular phone/PDA phone.

Mobile Extension is a PABX (Private Automatic Branch Exchange) and GSM integrated service in which all features of PABX at the office can be transferred to cellular phone (GSM). By doing so, the cellular phone can be used as the telephone extension number like office phone, with unlimited mobility and efficient cost.

“With these relatively new services, we hope those services could really fulfill the corporate needs for more mobility in order to enable businessmen to do the activity as in the office. Thus, place and distance will not be as a barrier,” added Guntur Siboro.

In addition to those services, Indosat also offers Wireless ATM service as one of a convergence solution which enable GSM technology solution for ATM machine either using data channel or Voice Channel. This service offers cheaper and more efficient cost with higher level of security, mobility and coverage.
