Indosat reports today headline unaudited results in order to complement the release of Qatar Telecom Q.S.C. (“Qtel”) results for the nine months ended 30 September 2009. As the majority shareholder in Indosat, Qtel fully consolidates Indosat’s results when issuing its own financial reports.

“Even though our customer base is almost 20% lower than the same period last year, our cellular revenues have shown some recovery. On a quarterly basis, our cellular revenues increased by more than 5% in the 3rd quarter of 2009, which demonstrates that our value strategy is beginning to show positive results. We will be consistent and continue to refine our strategies while providing the best service and product offerings in the industry, which will increase both customers and stakeholder value” said Harry Sasongko, President Director and CEO Indosat.

Indosat plans to file 9M 2009 unaudited results on the 28th of October 2009. An analyst and investor call will be held shortly thereafter.
