Net Debt to Equity	Net Debt / Total Equity	62.2	111.5

H109 Results Highlights

- Cellular revenue decreased in H109 by 1.3% year-on-year, linked to a 10.9% decrease in the cellular subscriber base: from 32.4 million in H108 to 28.9 million in H109 as the company continues to address calling card type behavior and continues to focus on higher value customers.
- Revenue from Fixed Data (MIDI) services grew in H109 by 8.5% year-on-year as a result of increased demand, particularly in MPLS, digital data network services, application services, internet services and IPVPN.
- Fixed Voice (Fixed Telecom) revenue grew in H109 by 7.7% year-on-year, driven mainly by an increase in IDD revenue of 8.5% due to increase in IDD traffic and the depreciation of the Rupiah against the US Dollar.
- Committed capital expenditure for H109 was Rp5,184.7 billion, with 81% allocated to Cellular; and the balance allocated to Fixed Telecom, Fixed Data, Infrastructure and IT.

H109

OPERATING AND FINANCIAL RESULTS

Jakarta, 27 August 2009. PT Indosat Tbk (“Indosat” or “the Company”) today releases its consolidated financial statements for H109 which have been independently audited by Purwantono, Sarwoko & Sandjaja: a member of Ernst & Young Global. The financial statements have been prepared in accordance with the Indonesian Generally Accepted Accounting Principles (GAAP).

I. Operating revenue

Operating revenue in H109 stood at Rp8,919.7 billion, an increase of Rp85.6 billion or 1.0% year-on-year [H108: Rp8,834.1 billion]. Indosat’s Cellular, Fixed Data and Fixed Voice businesses contributed to 74%, 16% and 10% of operating revenue.

Cellular revenue decreased in H109 by 1.3% to Rp6,604.7 billion [H108:Rp 6,694.0 billion], linked to a decrease of 10.9% in the subscriber base and a decline in monthly Average Revenue Per User (ARPU). As at 30 June 2009 the Company’s cellular subscriber base totaled 28.9 million: a reduction of 3.5 million subscribers year-on-year, as a result of the continued focus on reducing calling card-type behavior within the subscriber base. ARPU for cellular customers was Rp33,930, a decline of 17.2% year on year due to intensified price competition in the market which began in early 2008 together with the impact of lower interconnection charges which came into effect in April 2008. Minutes of Usage (MOU) decreased to 95.5, (decrease by 2.7%) compared with H108, mainly due to a decrease in off net traffic owing to the success of our on-net promotional tariffs.

Features (SMS, broadband and other value added services) revenue increased 25.4% as a result of an increase of 27.5% in the number of SMSs delivered despite a reduction in SMS tariffs. In addition, the increase also contributed by reclassification of wireless broadband revenues from fixed data business into cellular business.

In line with the Company’s continued focus away from volume, Indosat experienced an expected decline in subscribers during the period. This strategy has seen the company remove 7.6 million calling card type customers from its subscriber base in the first half of 2009, and as a result, increasing the overall percentage of active subscribers on the network, and improving the quality of service offered to customers. The company defines calling card customers as the customers who never add credits to their account.

Fixed Data (MIDI) revenue grew in H109 by 8.5% year-on-year to Rp1,396.5 billion [H108: Rp1,286.9 billion]. This increase was due primarily to an increase in demand for IPVPN, MPLS, application service, internet services and digital data network services from corporate customers.

Fixed Voice (Fixed Telecom) revenue increased in H109 by 7.7% year-on-year to Rp918.5 billion [H108: Rp853.2 billion]. This growth was due to an increase in international call (IDD) revenue as a result of increase in IDD traffic and the depreciation of the Rupiah against the US Dollar, particularly linked to revenue from incoming calls originating in US Dollars.

II. Operating expenses

Operating expenses: Rp7,000.3 billion, an increase of Rp262.6 billion or 3.9% year-on-year. Much of this increase resulted from an increase in the Cost of Services line.

Cost of Services: Rp3,172.8 billion: an increase of Rp355.7 billion or 12.6% on H108. This increase resulted from increases in the cost of utilities sites, rental sites, government levies and leased circuits as a result of network expansion. Government levies related to frequency fees including the annual 3G license payment, USO and concession fees.

Depreciation and Amortization: Rp2,415.9 billion: an increase of Rp98.5 billion or 4.2% on H108. The increase in depreciation expenses was due to an increase in cellular equipment, building & leasehold improvement and transmission & cross connection.

Personnel expenses: Rp693.6 billion: a decrease of Rp116.1 billion or 14.3% on H108. The decline was driven by a decrease in pension contributions, bonus and income tax (due to a decrease in the effective tax rate).

Marketing expenses: Rp381.0 billion: a decrease of Rp50.7 billion or 11.7% on H108, due to prudent and more targeted marketing campaigns.

Administration & General expenses: Rp337.0 billion: a decrease of Rp24.7 billion or 6.8% on H108, following the implementation of a cost efficiency program to minimize non-operational costs.

III. Other expenses

Other expenses in H109 amounted to Rp453.9 billion: a decrease of Rp163.1 billion or 26.4% on H108, due primarily to increased gains in foreign exchange and lower financing costs.

Gain on Foreign Exchange-Net and **Loss on change in fair value of derivatives-Net:** Indosat recorded a net gain in H109 on foreign exchange of Rp728.9 billion: an increase of Rp123.9 billion from prior year. The gain was driven primarily by the strengthening of the Rupiah against the US Dollar. Indosat also recorded a net loss on the change in fair value of

derivatives in H109 of Rp208.3 billion, compared with a net gain on the change in the fair value of derivatives in H108 of Rp40.9 billion.

Financing costs: Rp882.6 billion: a decrease of Rp8.6 billion or 1.0% over H108 due to lower interest rates.

Interest income: Rp104.1 billion: a decrease of Rp135.4 billion or 56.5% over H108 resulting from lower average cash balances and lower average interest income rates.

IV. Status of Debt

Total outstanding debt: As at 30 June 2009, the Company had outstanding debt of Rp22,688.2 billion. The Company has hedging facilities in place totaling USD509.0 million or 51.0% of the Company's USD denominated bonds and loans. The Company's cash position as at 30 June 2009 stood at Rp3,215.3 billion with net debt standing at Rp19,472.9 billion. Indosat's debt is comprised of Rp12,592.5 billion in loans and Rp10,095.7 billion in bonds representing 55.5% and 44.5% of total debt respectively. In terms of currency 55.4% is denominated in Rupiah and the remaining 44.6% is denominated in USD.

V. Network Development

Cellular Network: In the first 6-months of 2009, the Company installed 1,266 new BTSs and as at 30 June 2009, the total number of BTSs stood at 15,428, including 2G and 3G BTSs. Indosat cellular coverage now reaches all 33 provinces in Indonesia as well as 429 regencies (or 97.5% of total regencies) and 3,747 districts (or 69.7% of total districts).

As at 30 June	2008	2009	Additional
Base Stations (BTS)	12,064	15,428	3,364
Base station controllers	247	310	63
Mobile switching centers	70	93	23

VI. Marketing Activities

Cellular

In April 2009, Indosat launched the BlackBerry Storm in a bundling promotion, which included a bonus of 100 free on net voice minutes and 100 free SMS.

In May 2009, Indosat launched a new Balance Transfer from prepaid (IM3 and Mentari) customers and from postpaid (Matrix) to other Indosat prepaid customers.

In June 2009, Indosat launched Mentari Obrol Obrol which offers customers the opportunity to enjoy 60 minutes of on net calls for a price of Rp.1,000,-. Customers can enjoy this promotion by registering with the network for the offer on a daily basis.

In June 2009, Indosat launched IM3 Liburan Online which offers internet access for only Rp1/Kb. With this offering, customers can browse the internet, download materials, access their Facebook accounts and chat online during the holiday season.

In June 2009, Indosat launched weekly BlackBerry services for IM3 customers during the holiday season for Rp30,000/week.

Fixed Data (MIDI)

In April 2009, in response to demand from corporate users, Indosat introduced a new pricing scheme for Indosat Dedicated Internet Access (I-DIA) service with Premium class of service. The new pricing is aimed at maintaining both existing customers and acquiring new ones.

In June 2009, Indosat launched 2 categories of Internet Network provider (INP) tiered products, which is Premium and Standard INP. These tiered products are aimed at matching the competitiveness level of Indosat INP service compared with similar services offered by other operators and enhance market penetration nationwide.

In June 2009, IM2 launched its brand new Internet CDMA product - "TRUFF Mobile" - in corporation with Mobile-8, a CDMA-based cellular operator. This prepaid internet product is based on CDMA-1X network with a maximum speed up to 153 kbps. Subscribers will reload Rp 125.000 per month in order to enjoy an unlimited internet connection anywhere throughout a nationwide CDMA network.

Fixed Voice (Fixed Telecommunications).

In the second quarter of 2009, Indosat added 8 new cities to its existing StarOne coverage. Those additional cities are Palangkaraya, Sukabumi, Cianjur, Subang, Purwakarta, Sumedang, Tasikmalaya and Garut - bringing the total number of StarOne-covered cities to 63. During the period Indosat offered six months free calls to StarOne customers during a promotional period. Once the promotional period is over, the tariff will be Rp25/minute for local and long distance calls, Rp25 per SMS, Rp25/30sec for calls to GSM local and long distance and Rp99/MB for internet with speeds of up to 153,6 kbps.
